

Designer KB105

We Care For Kids.

Sleek design and color choices match modern restaurant design and décor. Curved design reduces potential liability by preventing chair from being turned upside down and used unsafely to balance an infant carrier. Constructed of seamless, solid HDPE plastic, which is more durable and sanitary than standard wood high chairs. Textured surface resists scuffing, chipping and scratching. Chair has a small footprint in the dining area and can be stacked up to four high for space savings. Table height chair allows a seated child to eat off a standard restaurant table.

Product Details:

- Modern design and appealing color palette integrates into a variety of restaurant decors
- Chairs can stack four high for easy storage and space savings.
- Available assembled (KB105) or unassembled (KB105-KD)
- ASTM and EN Compliant
- TUV Certified

Designer KB105

In 2019, the Consumer Product Safety Commission (CPSC) enacted a federal standard (ASTM F404-18) to improve the safety of all high chairs. The points below outline the new safety requirements.

Warning labels about tipping hazards

Active three-point restraint system

Passive crotch restraint system

Rearward stability to prevent chairs from tipping backward

Product registration to be alerted to possible recalls. Visit: koalabear.com/cpsc-registration
